

The New Face of Leadership

21 April 2011

For Immediate Release:

Woodbridge, VA—Succeed to Lead, LLC (STL) is now Certified as a participant in the US Small Business Administration's 8(a) Business Development Program. This program is designed to provide business development and technical assistance to small, disadvantaged businesses and enables Succeed to Lead to receive 8(a) Business Development Contracts.

"This latest certification helps us better position ourselves to assist our clients as well as work with other organizations who want to leverage our expertise," said Dr. Byron L. Cherry, President of Succeed to Lead.

Since 2008, Succeed to Lead has provided innovative solutions to the financial and administrative challenges businesses face. With offices in Northern Virginia and in North Carolina, Succeed to Lead delivers high quality and best value to its clients through exceptional creativity, ingenuity, analysis, communication and leadership skills. "We commit our entire efforts to the success of our client's organization. We work with all levels of leadership as well as the full spectrum of federal and government organizations," continued Cherry.

Cherry credits the ease of the 8(a) Certification process to the assistance of Province Consulting Group (info@provinceconsulting.com), a Service-Disabled Veteran Owned Small Business charged with the responsibility of helping small business owners successfully enter the government contracting arena. "The knowledge and detailed attention given to us was truly remarkable and ensured that our package was complete the first time through," said Cherry.
